PROFESSIONAL PROFILE :

Currently enrolled in the **MSc Data for Finance** at **Albert School / Mines Paris-PSL** and **Data Analyst** at **TotalEnergies**. I bring a 7-year background in construction project management, now complemented by strong Business Intelligence skills. While my current work centers on dashboards and analytics, I'm actively expanding into data engineering skills that bridge operational insight with technical execution.

PROFESSIONAL EXPERIENCE :

TOTALENERGIES (ARGEDIS) | Paris, France

Data Analyst – Graduate Apprentice | Sept. 2025 – Present

- **Monitoring:** Track KPIs across 180+ retail sites (~450M€ annual), identifying performance gaps and optimization opportunities.
- **Business Intelligence:** Built automated Power BI dashboards tracking service rates, supplier performance, and regional P&L trends.
- **Process Automation:** Reduced manual reporting time through Python, PySpark and SQL data pipelines on Databricks and Power BI.

LE WAGON | Bordeaux, France

Data Analyst Teaching Assistant (Freelance) | Jan. 2025 – Aug. 2025

- **Technical Mentorship:** Mentored 30+ students on mastering SQL, Python (Pandas/Numpy), and Business Intelligence tools.
- **Financial Projects:** Guided student-led projects on financial data visualization and predictive modeling for business insights.

ENTREPRENEURSHIP & OPERATIONS MANAGEMENT | Bordeaux, France

Founder & Project Manager | April 2018 – Oct. 2024

- **Business Ownership:** Managed 50+ construction projects with full financial accountability (procurement, pricing, cash flow).
- **Operational Rigour:** Delivered projects on-time and on-budget, handling supplier negotiations and client expectations.
- **Management:** Orchestrated multidisciplinary teams and managed client relationships in high-pressure environments.

EDUCATION :

ALBERT SCHOOL / MINES PARIS - PSL | Paris, France

MSc Data for Finance – 100% English Track | 2025 – 2027

- **Finance Core:** Corporate Valuation & LBOs, M&A, Project Finance, Financial Markets for Corporate Finance, Private Equity & VC.
- **Data Core:** Python & SQL, Data Engineering, Data mining, Machine Learning, Deep Learning, NLP, Agentic & Gen AI.

LE WAGON | Bordeaux, France

Data Analyst Certification (Bachelor Level) | 2024

- Intensive bootcamp focusing on Data Science, Big Data, and KPI Design.

SELECTED PROJECTS :

- **Real Estate Development :** Directed a personal 500k€ residential development project, start to exit (budgeting, risk assessment, etc.)
- **SQL RAG Chat-bot :** Fully functional RAG chatbot with lang graph and langfuse capable of querying databases and retrieval data.
- **LVMH Tech Partnership (Academic):** 3-week “Hackathon” business case focused on data-driven innovation for luxury retailing.

SKILLS & INTERESTS :

- **Languages:** French (Native), English (Professional).
- **Data & Tech:** Advanced Excel, Python, SQL, Power BI, Power Automate, Databricks, Bigquery, PySpark.
- **Business & Finance :** P&L Ownership, Sourcing, Due Diligence, Negotiation, Risk Management, Financial Modeling.
- **Hobbies & Interests :** Run, Surf, Macroeconomics & Finance, Psychologie & Anthropologie.
